Henry Ford Jumps In To Back President Harding In Disarmament Fight

Detroit Auto Manufacturer Declares He Is With The President Absolutely In Latest Peace Move. Claims Munition Makers and International Bankers Prolong War Game

By RAYMOND CLAPPER, United Press Correspondent.
Washington, D. C., July 25.—Henry Ford is solidly behind President Harding in his disarmament program. The automobile manufacturer plans to assist the President in removing the causes of war with every resource at his command.

This development resulted in a frank informal talk between the two at the week end camping trip in the Maryland hills. Ford outlined his disarmament views in an exclusive interview to the United Press.

Ford's Views.
Munition makers and international bankers, Ford declares, are trying to keep the war game alive. His plan is to turn the spotlight of publicity on them and bring the force of public opinion to bear down any attempt to obstruct the disarmament plans.

"Munition makers were responsible for the Germans arming to teeth," he said. "Now they are trying to do the same thing with Japan. With Germany gone they are trying to find another reason to keep up the war business and are trying to use Japan as an excuse."

Ford was sitting on the edge of a broken down bed in a deserted log cabin at the camp. He had thrown off his coat and a stout pair of good old fashioned suspenders were revealed. His lean figure was tense as he said: "If we are to get anywhere in this business every man must put his soul into it. Put that down as strong as you can. President Harding is taking exactly the right course and I'm for him absolutely in this."

ALL EUROPE HELD IN GRASP OF A GREAT DROUGHT

Forest Fires Rage in Many Countries and Crops Reported to be Threatened.

London, Eng., July 25.—All Europe burned today in a drought which brought with it forest fires and crop shortage, and threatened plagues. Huge fires swept through the forests in Northern Britain, cutting a ten mile path. There was also fear that the harvest this year would fall far below the average, especially the wheat crop.

Holland also suffered from forest fires. Conflagrations raged today in the provinces of Drenthe and Lemburg. German scientists were experimenting with dry farming but with little hope of benefitting the present crop. Sweden suffered also and Russia was regarded as the danger spot.

Mr. and Mrs. Thomas W. Hemphill left Saturday for Lock Haven and Williamsport where they will visit friends and relatives.

MOB BURNS TOWN LOCK-UP TO GET NEGRO CAPTIVE

Police Rescue Negro Charged With Attacking Woman and Rush Him Out of Danger.

Newcastle, Pa., July 25.—An attempt on the life of John Porter, aged 35, a negro charged with attacking Mrs. Elizabeth Houk, was made by citizens of Chewton near here early today. Men stormed the town lockup and fired the jail. Police rescued the accused man and removed him to the county jail.

SECRECY OF IRISH PEACE PARLEY IS NOW THREATENED

House of Commons Plans to Force Premier Lloyd George To Show His Hand in Deal.

London, Eng., July 25.—The secrecy of the Irish peace negotiations was threatened today when influential members of the House of Commons planned to force Prime Minister Lloyd George to give out the details of the offer which "President" DeValera is now submitting to Sinn Fein leaders in Dublin. Commons is actuated by several motives chief among which is a desire to take an active part in the history making conference.

The House of Commons played an active part in the coal strike negotiations and other important questions, and desires to continue to show its strength. Instigators of the movement found sufficient support to make almost certain that the Premier would have to make some sort of explanation if he does not, at least, reveal all.

Refuses To Explain.
However, Lloyd George today refused to violate the secrecy surrounding the negotiations. The premier did, on the other hand, promise to make a statement within a short time revealing the terms offered by "President" DeValera. He told members of Commons in the meantime not to accept press accounts of the terms. "The purported terms I have seen are incorrect," he said.

Expression Was Originally Job's.
It is a long way to go to the days of Job for a "modern" expression! The phrase, "Escaping by the skin of the teeth," may be found in the 20th verse of the 19th chapter of the Book of Job: "My bone cleaveth to my skin and to my flesh, and I am escaped with the skin of my teeth."

New Judge

Miss Mary O'Toole has just been appointed judge of the municipal court in Washington, D. C., by President Harding. She is the first woman to hold that office.

GIRL'S ASSAILANT FOUND HIDDEN IN UNCLE'S HOME

Posses Searching for Man Who Attacked 14 Year Old Girl Unearth Thomas Ryhal.

Mercer, Pa., July 25.—Thomas V. Ryhal, alleged assailant of Clara Bell Lennox, 14 year old Newcastle girl, who has been unconscious for more than a week, was arrested at the home of an uncle at Blacktown near here, early today.

Ryhal departed from his home in Newcastle last week just a few minutes before officers, armed with warrants for his arrest, arrived. Posses scoured this section of the state for him, but no trace was found until Sheriff Jarrad and a squad of deputies found him today hiding between two mattresses at his uncle's home.

The Lennox girl was found in a clump of bushes on a lonely road. Her skull had been fractured, an eye gouged out, and the body was clad only in a shoe and a stocking when found.

GOV. SMALL VICTOR IN HIS FIGHT TO RESIST ARREST

Springfield, Ill., July 25.—Governor Len Small apparently won a victory in his fight to force postponement of his arrest and trial on charges of juggling ten millions of dollars in state funds. Sheriff Mester, on whose shoulders falls the duty of serving the warrants, told the United Press today that he would not use force in arresting the indicted governor who is guarded by state militiamen.

Relief in Official Circles
Sheriff Mester's statement brought relief in the capitol, where prospects of armed clashes between state militiamen and deputy sheriffs was keeping the populace on edge. The Sheriff told the United Press he would make an honest effort to serve the warrant if he was so instructed by the court. "I may cause the governor some worry," he said. "I will not use force."

Martial Law In Russia

Copenhagen, July 25.—Martial law has been declared in Petrograd to suppress a workers' revolt, according to dispatches received here today from Reval. No details of the reported uprising were contained in the dispatch.

NEW YORK STOCKS

New York, July 25.—American Loco, 5; American Steel Fdy, 49 1-2; Anaconda, 38 1-4; Baldwin Loco, 79 1-4; Baltimore and Ohio, 39 1-2; Bethlehem B, 43 3-8; Crucible Steel, 55; Erie, 13 5-8; General Electric, 12 3-4; General Motors, 10 1-2; Mex. Petrol, 105; Middle States Oil, 10 3-4; Pennsylvania, 35 5-8; St. Clair Oil, 20 1-4; U. S. Steel, 73 3-8; U. S. Steel pref, 109 1-8; Westinghouse Electric, 44 1-8; Willys Overland, 7 1-4.

COL. MARTIN NEW MEMBER OF STATE ARMORY BOARD

Harrisburg, Pa., July 25.—Col. Edward Martin, of the Pennsylvania State Guard, of Waynesboro, was today appointed by Governor Sprout to succeed General Rickard as a member of the State Armory Board. Gen Rickard was recently appointed chief of the Militia Bureau at Washington.

Mrs. C. G. Wilson and daughters, Helen and Lena spent the week end at Pete Browns.

Prohibition Raiders Ambushed By Party Of Six--Two Dead--One Hurt

Jackson, Ky., July 25.—A Sheriff's posse of thirty members, led by bloodhounds, is scouring the hills of Breathitt and Knox counties today searching for six men who ambushed a party of prohibition raiders Saturday, killing one man and a boy, and seriously wounding another.

The trouble, according to officers, dates back several weeks when some stills hidden in the fastness of the

neighboring hills were raided and one alleged moonshiner killed.

Shot from Ambush
The party was returning with the stills Saturday when suddenly the bushes along the path parted and a volley was fired. Deputy Sheriff Watkins, Henry Noble, age 14 and Shade Allen fell. Andrew Allen, another member, pretended he was wounded and lay prone on the ground.

Troop No. 2 Of Local Boy Scouts Leaves For Camp

Troop No. 2 of the local Boy Scouts, under command of Scout Master Gregory Hartswick, and to the number of 21, left this morning for Camp McPherson where they will spend the coming two weeks under the watchful eye of Captain Russell Snively, while putting on flesh as the result of close acquaintance with the fine grub dished up by Chef Guy Lawhead.

Thursday afternoons and Sundays are visiting days at the camp. Clearfield people generally should visit the camp and see for themselves what a delightful place it is.

"Y" SWIMMING POOL FINALLY DECIDED UPON

Directors Secure a Building Permit and Arrange To Start On Work In Near Future.

Clearfield is going to keep abreast of the procession and will have a swimming pool at last. The determination to proceed with the addition to the Y. M. C. A. and the building of an adequate swimming pool has been finally decided upon by the Board of Directors of the Y.

The recent campaign for funds did not net quite as much as was expected when the start was made but enough contributions and pledges were secured to warrant the directors in taking the steps they did.

Move Approved
The action of the directors will meet with general approval because an indoor swimming pool has long been the crying need of the town. The only place available for swimming has been the Susquehanna river and unfortunately this stream nowadays is neither a thing of beauty nor a sweet scented bouquet.

All the necessary funds for the contemplated improvement at the Y. M. C. A. are not in sight, but the forward looking men making up the directorate have sufficient faith in old Clearfield and Clearfielders to warrant them in deciding to go ahead with the pool.

Secure Building Permit
A building permit for the new improvement has been secured and work will be started on same just as soon as it is possible to get the preliminary details completed.

The addition will be of brick two stories high and will extend from the east wall of the present structure back to the alley between Second and Third street.

CAR OVERTURNS NEAR DUBOIS, ONE KILLED, FOUR HURT

DuBois, Pa., July 25.—A fatal accident occurred on the Falls Creek road at 7:15 Saturday evening, when a Dodge touring car, containing four people, overturned, killing one and slightly injuring the two others.

John Billis, of Falls Creek, was instantly killed, as life was extinct when the car was lifted from his body, within a few minutes after the accident. Howard Smith, the driver of the car, and Lillian Bracken, of DuBois, were both slightly injured.

COUNTY ROAD CREW AT WORK FIXING BRIDGE APPROACH

Will Macadamize Road And Straighten Out Bad Curve. Will Also Relay Brick Street.

County Supervisor of Roads E. M. Westcott started a crew of forty men to work this morning paving the approaches to the Concrete bridge at Clearfield creek. These bridge approaches from the New York Central tracks on this side will be paved with water proof concrete or macadam.

Will Straighten Road
On the east side of the creek it is the intention of the High Way Department to straighten the road by cutting off the point of the lower Kurtz farm, which juts out and makes a curve in the present State road there.

The cutting back of this point will mean the entire elimination of this curve and relieve a dangerous condition by making the road straight from the bridge up through the Kurtz farm.

Will Relay Brick
In addition to paving these bridge approaches Supervisor Westcott also proposes to relay the brick from the borough line at the end of Dais street through to the New York Central tracks at the bridge.

This road is in bad shape on account of bad drainage and from the fact that the brick were laid on a inferior base. This road through the old Weaver farm has been underlaid and an ash base two feet in depth properly rolled, will be placed and then the brick relaid thereon.

The brick road through Wood and will also be relaid before the summer is over.

FIVE BANDITS HOLD UP IMPERIAL BANK

Pittsburg, Pa., July 25.—Five bandits today shot up the Imperial State Bank at Imperial, near here, and escaped with \$700 in silver after locking three officials of the institution in a room.

As the bandits were leaving the bank President Calhoun fired a shot at the auto containing the men, and one of them howled as though wounded. Police along the road to Steubenville have been requested to be on the lookout for them.

ANOTHER CLEAR- FIELD MAN GETS TRIP TO PANAMA

W. Emory Hartman, who received his B. A. with a class of over two hundred at Ohio Wesleyan University in June, left this morning for Delaware, Ohio. He has been a member of the University glee club during his entire college course, and in his closing year, second tenor on the varsity quartet. This club has the distinction of being selected by the government to make the trip to Panama this season. After a few days of intense practice at the seat of the University, the club will fill several engagements, including Lake Side, Cleveland, and Columbus, ending up at Ocean Grove auditorium August 16. Following this they will sail from New York on a month's trip to the Panama Canal zone as guests of the U. S. A., where they will give concerts for the government employees.

This is the second man from Trinity church choir to win this honor, Albert Kennard, first tenor on the State College quartet, having gone on a similar trip last December.

TYSON GOODYEAR HURLED FROM CAR TO HIS DEATH

Driver Hits Fast Pace—Child Thrown from Car. Fatal Accident As He Tries to Stop.

Tyson Goodyear, aged 60 years, and a resident of Munson, this county, was almost instantly killed as the result of a peculiar motor accident yesterday. Mr. Goodyear, in company with several members of his family, were driving across the mountain on the Penfield road. The road was new to the young man driving the car and when they approached the sharp curve on Sullivan hill, Mr. Goodyear, who was familiar with the road, cautioned him about the curve. The car was raveling pretty lively and when the curve was reached the little two-year-old child of Mrs. Grace Gingery, one of Mr. Goodyear's daughters, was hurled out of the car.

The hurtling child and the cries of alarm from other occupants of the car caused the driver to take his eyes off the road momentarily and the car werved from the road and ran up into the bank where it struck a rock and Mr. Goodyear and one of his daughters were thrown out onto the road. Mr. Goodyear struck on his head and shoulders and suffered a fractured skull and broken neck. He was placed in a car and rushed to the Clearfield hospital but was beyond medical aid when that institution was reached.

The child was also badly bruised but not as was Miss Myrtle Goodyear, the other victim of the accident.

The remains of the accident victims were taken in charge by undertaker B. Leavy and after being prepared for burial were taken to Munson this morning.

Mr. Goodyear is survived by a widow and four daughters, viz: Mrs. John Welch, of Lawrence township; Mrs. Grace Gingery, of Munson and Misses Maude and Myrtle, of Clearfield.

GAME COMMISSION OFFICIAL HERE TODAY

Secretary Gordon of the State Game Commission, who is making a tour of the State Game Reserves in his section, was a Clearfield visitor or a few hours today enroute to Kennedy Park. After inspecting the reserve he expected to go on to St. Mary's where he will address the Wild Life League tonight. He will also talk to Ridgway Wild Life Tuesday evening.

Secretary Gordon inspected the site proposed for a game refuge in the mountains beyond Philipsburg before coming to Clearfield. An effort is being made by the Sportsmen of that section to have the State Game Commission purchase the Sharrer estate lands for a game refuge. The plot is a desirable one.

LEGION PAYS LAST RESPECTS OVER SOLDIER'S BODY

Remains of Elmer Cole, Returned from France Laid at Rest Sunday.

The funeral of the late Elmer Cole, whose remains arrived from France on Friday morning last, was held from Trinity Methodist Episcopal church at 2 o'clock yesterday afternoon.

The funeral was in charge of John Shade Post of the American Legion and a large number of the deceased hero's comrades turned out to do honor to his memory.

Clearfield people generally also turned out in large numbers to pay their last tribute of respect to the deceased soldier, who was one of the first of our boys to respond to his country's call.

The services at the church were beautifully impressive and were conducted by Rev. W. W. Hartman. Interment was made in Hillcrest cemetery.

NEWS OF OUR NEIGHBORS CURWENSVILLE

Walter Miller, the South Side drayman, is about the happiest man in this village at the present time, as Father Stork visited his home last Friday morning and left them a

handsome young daughter.

Miss Fannie Wolf, who holds a clerical situation in Philadelphia, came home on Saturday and will spend her vacation with kin folks.

Rev. Arthur Willis, a Methodist minister whose home is in New Jersey, accompanied by his family, are spending several weeks in the home of Mrs. Lutzer on South side.

Preparations among the town merchants for the big Dollar Day sale are about completed and all that remains to be done now is patiently await the time and day. The upriver country has been thoroughly gone over and profusely billed and a big crowd is expected to come to Curwensville to supply themselves with a line of winter goods at this great sacrifice sale. The Progress is receiving much commendation for assisting our merchants in arranging and carrying on this project through the Curwensville letter.

Messrs Hon. Chas. E. and Joseph H. Patton, both informed ye correspondent one day recently that they greatly missed those old pioneer sketches relative to Curwensville and the people published from time to time in our letter to the Progress and asked that if the "powers that be" would not permit us to slip one in occasionally. They are not the only ones who have spoken to us about this matter.

A party filling eight automobiles left Curwensville on Sunday morning for a trip to Penn's Cave, Centre County. Too many to reiterate and catalogue names.

A surprise social party was pulled off in the basement Saturday evening, the refreshments being served at 6:30 o'clock. About fifty persons responded to the call, the event being conducted under the auspices of the Ladies' Adult Bible Class, and in honor of Mrs. Sallie

Watts who has been the teacher of that class for a number of years, but who has been ill for some months and unable to attend her school duties until just recently. A most enjoyable evening was spent until almost ten o'clock when the jovial gathering dispersed to their homes feeling considerably refreshed by the evening spent in brotherhood and sister hood.

Lynn Stewart and family left on last Friday for a motor trip to Conneaut Lake, and some other northern resorts. They expect to return today.

Mrs. Bradly Gamble, nee Bessie Thompson, residing in Pullman, Ill., spent Friday and Saturday with Curwensville friends, coming here from Williamsport, Pa., where she had spent several weeks with her sister, Mrs. Archie Davidson. She also spent several days with another sister, Mrs. Lex Brown in Clearfield.

A surprise birthday party was given in honor of Mr. Milton McClure's 84 birthday at the home of his son Roy McClure, in Pike township, yesterday. All of the old civil war veterans in this vicinity to the number of some half dozen, were in attendance. It was a gala occasion for Mr. McClure to once again to mingle with old comrades and swap war tales of bygone days. Mr. McClure veteranized in the service having served three full years as a member of C. B. 149th regiment Backtails and has the distinction of never missing a march or fight in which his regiment took a part. He was mustered from the service bearing the rank of First Lieut. Besides those present outside of his comrades were the members of his immediate family and a few relatives.

Born, to Mr. and Mrs. Catalina, at the brick yard on Friday evening, a son.

ODDS AND ENDS AND THINGS

"By Skintey"

Is water to replace gasoline as fuel for automobiles? Marvyn Smith, Denver inventor, formerly of the Three Hundred and Fortieth Battalion, United States Tank Corps has invented a hydrogen gas motor propelled not by gasoline but by water.

United States Army airplane experts, high officials of the United States postal air mail service division and automobile manufacturers in all parts of the country are watching Smith's invention with interest.

A Chicago man, who was divorced last week says that women are getting worse with every generation. He ought to know what he is talking about, too, because he is 91 years of age and the marriage he just had legally dissolved was his third venture. He says: "My first wife was pretty good, my second just medium and the third no good at all." He asserted he is through with them all.

Our reprint of Bob Ingersoll's poem on "Intemperance" caused an unknown correspondent to inflict the following upon us:

Ingersoll on intemperance, Pooh! Listen to Billious Sunday: "And who do we see coming from this hopper of sin? A muttering, staggering, bloated, shambling gait, bleary-eyed reeling maunders, vomiting, puking, ragged, hog-jowled, bull necked, beetle browed, weasel eyed, puss gutted, beer soaked, whiskey soaked, vermin covered, red nosed, God forsaken hell bound bum, with a oath that would put a den of polecats to shame.

"Hell hath no fury like a fat woman scorned. At least Prof. Wanger, of Chicago, a 'physical torture' expert, is of that opinion. The Professor had a scheme whereby extra fat, roly poly women could separate themselves from a bunch of excess fat and \$30 by following his instructions. This separation process was in two parts, one of which required the fat woman to bend over and touch toes thirty times a day. The professor got a lot of lusty old girls at work on his cure, after collecting \$30 a piece, and then decamped. His arrest followed an indignation meeting among the fat ones.

The modern Venus is Miss Gertrude Artelt. She was chosen from 2,000 contestants at the recent American Gymnastic Union tournament at Chicago as having the most perfect figure and representing the best type of feminine athlete.

Miss Artelt stands five feet, ten and one-half inches; while the Venus of ancient days was only five feet four inches. Cleopatra was five feet five inches and Annette Kellerman is five feet, four and three-quarters of an inch.

Miss Artelt's waist is slimmer than that of enus. Her girth is twenty-nine inches, while that of the Goddess was slightly over thirty-two inches. Across her shoulders in the back Miss Artelt is seventeen inches. The circumference of the shoulders of Venus was forty-one inches, of Cleopatra forty and of Annette Kellerman, thirty-six inches. Miss Artelt tips the scales at 160 pounds, while Venus is supposed to have weighed 132 pounds.

SOMETHING WE LONG HAVE SUSPECTED

Those people who lack hair, according to a prominent French medical man, are the brainy folk of the world. There is a tremendous amount of energy needed to grow hair, he says. If the brain is exceedingly active, it absorbs the vital force that would otherwise be taken by the hair. Further-more, as the brain expands it forces the cranium to rise and contract its pores, thereby stiffening the enfeebled roots. The result is that the person becomes bald thru having done too much thinking.

In pursuing this remarkable theory further for the benefit of the skeptical reader it can be pointed out that furbearing animals are known to be the most stupid. It is indeed no compliment to call a friend a "wooly sheep," as this animal is known for its stupidity.

On the other hand, we find that the elephant, the smoothest skinned of all animals, is reputed to be the most sagacious; while the horse and the seal, which latter is often trained to an exceedingly high degree, are remarkable instances of beasts which grow comparatively little hair,

WOODLAND M. E. CHURCH NEWS

Mrs. H. B. Varner's Sunday School class held a very successful ice cream and cake social Saturday evening. The realized \$36.00.

District Attorney John C. Arnold will deliver an address on the church lawn Tuesday evening at 7:45. Under the auspices of the W. C. T. U. Everybody invited.

Wednesday evening at 7:45, Rev. C. E. Cook, secretary of the Clearfield Y. M. C. A., will discuss Boy Scout work with a view to organizing a troop in Woodland. Everybody is urged to come to this meeting.

The Epworth League will meet Friday evening at eight o'clock. The leader is Miss Lola Young and the topic is "Sacred Music."

The delegates to the Epworth League Institute at Eagles Mere will read their reports at the Sunday School next Sunday morning. Communion service will be held in the evening and the preacher will be Rev. C. C. Snavely, pastor of the West Side M. E. church at Clearfield.

STILL COMING IN

The "Dutch Katie" fund, which has not been increasing like it should, was augmented this morning by a contribution of \$4.75.

The contribution was marked "In His Name."

Auto Backfires; Breaks Man's Neck

Pittsburg, July 25.—Eugene Fleck, aged 37, of 3317 East street, met almost instant death yesterday morning when he attempted to crank his automobile. As it backfired, he sustained a hard blow in the neck with the flying crank. His neck was fractured. The accident occurred in Fleck's garage, across the street from his home, while he was getting ready to take his family for a morning ride.

\$14,300,000 for Street. The largest sum ever spent in improving one street was \$14,300,000, laid out on the Rue de Rivoli in Paris.

LEGAL Intelligence

Scent is Distributed.

It is true that we appreciate scent with the flowers and, occasionally, with the leaves of plants. But nature, so marvelously loving of diversity, scatters the sweetness, now here, now there, sometimes in the flower, sometimes in the leaf, in the fruit, the bark, the wood and even in the roots. In the ginger and the iris, for instance, the perfumed oils are in the roots, in the sandal tree the fragrance is in the wood, in the cinnamon shrub it is the bark that scents the air.—Columbus Dispatch.

CARD OF THANKS

Mrs. B. F. Cole and family desire to return their heartfelt thanks to the many friends and neighbors who so kindly assisted us during the funeral of our late son and brother Elmer Cole.

DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING

Hopes every man and woman here will adopt this splendid health habit.

Says a glass of hot water with a teaspoonful of limestone phosphate in it washes poisons from system, and makes one feel clean, sweet and fresh.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days head-achy, dull and unstrung; some days really incapacitated by illness.

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-checked people everywhere. The reason is that the human system does not rid itself each day of all the waste it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each

morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, sick headaches, rheumatism, lumbago, nervous days and sleepless nights have become real cranks about the morning-inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing sweetening and freshening effect upon the system.

It's An Event Worth Saving Every Dollar Which You Can Possibly Save

CURWENSVILLE'S COMMUNITY DOLLAR DAY SATURDAY, JULY 30

Bill Louden's Team Is Forced To Drink From The Whitewash Bottle

Locals Take Sweet Revenge On Philipsburg Before Record Crowd of Fans. When Dust of Battle Clears Up Score Stands 5 to 0, And Burgers Sing The Blues

Manager Hoffman's Terriers continued their winning streak by annexing their eighth straight victory in the game with Philipsburg at the Driving Park Saturday afternoon last, which session they put on the right side of the ledger by a 5-0 score. Saturday's game was the ninth straight without a defeat, our winning streak, starting with the 13 inning tie with the Elco team.

The Jinx Put Out of Business

That hex cat jinx was chased off the lot Saturday and the "burgers," having to play on their merits, without the services of old Demon Luck were quickly outclassed. The game never was in doubt and the weak-kneed alleged sports, accompanying the visiting team acknowledged they were licked before they started and could not be coaxed to put up a dollar.

Taylor Pitched Classy Game

Lefty Taylor was again given a chance and got sweet revenge on the burgers for their former lucky wins. He had Philipsburg's alleged "wrecking crew" eating out of his dexterous left hand and allowed but five measly singles during the nine innings. They got but one man to third base, and while he arrived there before any body was out for that inning, he never had a chance to score, as Taylor fanned the next two and the third was an easy out at first. Clearfield played errorless ball behind Taylor, whose effectiveness is shown by the fact that but two fly balls were hit to the outfield.

Evans Gets Lacing

A big tall husky guy, who ran up to a point at the top, not unlike a sharpened lead pencil, named Ruben Evans, and reprinted from Oil City, was Scotty's pitching find. Our boys fanned him, too, for nine solid bingles, for a total of fourteen bases Evans was to get a bonus if he won the game, and he sure worked and kicked hard to get it. He tried to brow beat Umpire O'Donnell several times and proved to be about as good an umpire as he was a pitcher. He sure was a windy cuss and fed the Centre county natives—before the game—with lurid tales of his prowess on the ball field, offering to bet—over in the 'burg—about how many more hits he would have than the fellow who pitched against him. Look at the box score.

Visitors Never Had a Chance

Wise opened the game for the 'burgers by going out, Wolf to Harris, Loudon singled, Eichensier sacrificed Loudon's pitcher to first. Ullery scratched in a single over short. Fagan ended the inning by fanning. From then on to the sixth inning Philipsburg connected with Taylor for but one hit. In the sixth Wise opened with a single to right which got by Hoffman and Wise went to second. Loudon cracked a long single to left but Anderson's fast handling of the ball held Wise at third. Loudon stole second. Taylor then turned on the heat and fanned Eichensier and Ullery. Fagan hit one down to the best second baseman in these parts and "Siegy" threw him out at first.

Fanned Two Men in Ninth

After the sixth it was one, two, three and out for Philipsburg and to demonstrate his real superiority Taylor fanned Ullery in the ninth. Fagan's smash was gobbled in by the capable Harris, who tossed to Taylor covering first and Hopper ended the game by the strike out to tie.

Clearfield Scores in Second

Evans started off like a real pitcher. He fanned Kane, Seigfried hit for two bases, Anderson went out on a fly to short and Harris was out short to first.

In the second Hoffman was given a life on Ullery's error, Zerfluh's sacrifice put him on second and he stole third. He attempted to score on Wolfe's tap in front of the plate, but was caught between bases and called out at third by Umpire George. Wolfe went to second while Hoffman was being run down and scored on Hopper's single.

Get Another in Third

Kane was out Loudon to Ullery, Seigfried singled Anderson hit to Wise and was out at first. Joe Harris hit one on the nose and it landed near the track in left field. Wolfe scored, but Harris was caught on a close play at third in his attempt to get three bases on the hit.

Two More in the Fifth

We were blanked in the fourth but counted two more in the fifth on

Anderson's double, Harris' single and an error by Wise.

In the eighth after Anderson was out Harris picked out one to his liking and bounced the ball up against the fence in centre field. He made three bases on the hit and in an attempt to catch him off third Evans threw wild to Wise and Harris scored.

The Game's Features

Aside from Taylor's wonderful pitching, the game was featured by the great all-round work of Joe Harris, while Seigfried and Loudon each put up fine games around second, his only misplay being on end. Wise also put up a fine game Harris' single, which he managed to get his hands on and then made a bum throw to first while off his balance. Hopper also caught a nice game.

The score:

	R.	H.	P.O.	A.	E.
Clearfield	5	9	27	13	0
Philipsburg	0	0	0	0	0
Wise 3b	0	1	3	2	1
Louden 2b	0	2	0	8	1
Eichensier rf	0	0	1	0	0
Ullery 1b	0	1	14	0	1
Fagan ss	0	1	2	2	1
Hopper cf	0	0	0	0	0
Palm lf	0	0	1	0	0
Cooley c	0	0	3	1	0
Evans p	0	0	0	3	0
Total	0	5	24	16	4

Summary.

Philipsburg .. 0 0 0 0 0 0 0 0—0
Clearfield ... 0 1 1 0 2 0 0 1—5
Two-base hits—Harris, Seigfried, Anderson, Wise. Three-base hits—Harris. Struck out—by Taylor, 10; by Evans, 2. Hit by pitcher—Evans. Umpires—O'Donnell, George. Time of game—2 hours. Attendance—3,000.

Picked Up Along Third Base Line

Army Officer Scores In Bergdoll Graft Charge Hearing

Washington, D. C., July 25.—Major Bruce R. Campbell, charged by Mrs. Emma C. Bergdoll with having accepted a \$5,000 bribe from her son to "fix higher-ups" so that Grover Cleveland Bergdoll might be released, scored a point in his defense today. His father, W. R. Campbell, Lexington, Ky., tobacco man, corroborated the story of his son as to where he obtained the \$6,500 which he deposited with New York brokers about the time Mrs. Bergdoll said she gave \$5,000 to Grover to give to Campbell.

General Manager Warner and Supt. Bowne, of the Clearfield Sewer Pipe Company deserve great credit for the showing they made at Saturday's game. They had 130 employees of their plant in line and marshaled to the park behind the American Legion and Clearfield Italian Bands, while their own drum corps enlivened the occasion between times. The sewer pipe people have the proper spirit.

Manager Scott could "feel it coming" and was not to be seen in his usual place on the players bench. His "hex cat" has also disappeared from the Court House. Secretary Jim Adams had more sand, he sweat and swore through the awful lambasting.

Philipsburg has a bunch of loyal female rooters and if the male fans had half as much nerve as the girl followers of the team, you might be able to hand them something.

Breckinridge's funny stuff made a real hit with the big crowd Breck was some artist and his stunts are real classy.

There were between 3000 and 3500 people at the game. It was the biggest crowd at a ball game here since the Clearfield Tyrone game on Labor Day 1907.

Paul Kritchell, scout for the New York American League team, who was up in this section the past week, has signed Lefty Hill, of Brookville, and Pitcher Lutz, of the Elcos for next season. Lutz pitched the 13 inning game for the Elcos played here two weeks ago. Hill will report to New York on September 1st.

RECKLESS MOTORIST KILLS VALUABLE SPANIEL DOG

A valuable Spaniel dog belonging to B. F. Minnick was run down and killed by a reckless motorist at the corner of Third and Pine streets Friday last. Eye witnesses of the affair say the machine which killed the dog, which was standing close to the curb, made the turn into Third street at 25 miles an hour and had the driver had his car under control he could have avoided running the dog down.

Motorists are entirely too reckless nowadays. Many of them appearing to be of the belief that nothing alive has any rights on the street or road. Several dogs have been killed in different parts of town the past week and in every case the deed was done wantonly or negligently dog owners claim, and as they pay tax on their dogs feel that prosecutions should follow in such cases.

SIDNEY HOEHL GETS NEW POST AT PITTSBURG

Is Appointed Graduate Manager of Student Activities at University of Pittsburg.

Pittsburg, Pa., July 25.—The appointment of Sidney S. Hoehl as Graduate Manager of Student Activities at the University of Pittsburg has just been announced, this new position being perhaps the second of its kind among American educational institutions. As Graduate Manager, Mr. Hoehl will have complete charge of all student activities except athletics; the publications, musical clubs, and similar student interests being under his control.

Hoehl is a graduate of the College of the University of Pittsburg in the class of 1915, and from the Law School in 1920. During the World War he was a First Lieutenant of Infantry and served at Camp Lee, Virginia, where he organized a discharge system later adopted by various army camps throughout the country.

Should Mothers "Break Training"

At the end of every football season in the colleges, after weeks of hard work, members of the team let down, or, as the saying goes, "break training."

They find it almost compulsory to rest and relax—to refresh themselves for renewed labors.

"But what of mothers," a contemporary writer asks, "mothers tied down from day to day, week to week, month to month—ought they not to break training also? Relaxation now and then would add years to their lives."

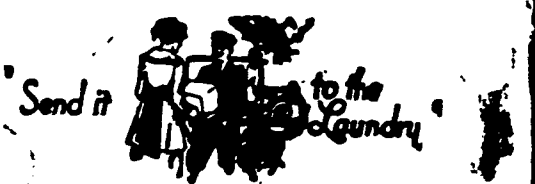

It's such relaxation that's available in this service we offer. Why not declare a holiday from watching over and bickering with laundresses? Why not gain escape from all the irritations that washdays entail, for a few weeks during these summer months?

We make it easy, and economical too—call punctually for your entire washing, and then just as punctually return it—everything refreshed, daintily clean, properly folded, free from unsightly pin holes or other blemishes—just as you would have it if you finished it yourself.

Why not call us now—today—while you're in the mood? You'll find yourself richly rewarded in the rest and leisure.

MAKING THE CROSSINGS MORE DANGEROUS

Clearfield county highways and roads set a high record for the number of railway crossings that can be encountered in the course of an afternoon's automobile trip. Practically each and every one of the country crossings is marked by big "Danger Signs" and "Look Out For The Locomotive," but the one thing that would tend to cut down danger from approaching trains is missing. That is a clearing out of brush and shrubbery that obscures the view of the track for some little distance on either side of the road.

It is a fact that even on the outskirts of some boroughs and villages the approaches are hidden from view and that on grade crossings especially. It would not cost the railroad companies a fortune to secure permission from owners of land along their right of way to brush out approaches so a motorist could have an unobstructed view of the track, and thus lessen danger of injury or loss of life. Automobiling is one of the few real pleasures left in these days of Reformers and Anti-Everything Enjoyable and with huge sums being spent by State and County to provide better and improved roads, the small sum necessary to remove railroad crossing dangers in the shape of hidden approaches ought not to be begrudged.

A record breaking crowd turned out Saturday afternoon to see the ball game at the Driving Park. Which all goes to show there is still a little of the good old Clearfield spirit left in Clearfield. However, one thing only marred the outlook for the day for many who were obliged to seek seats in the bleachers in front of the grandstand. That was the fact the old judge's stand, across the track, obstructed their view of the greater part of the diamond, and especially third base. In addition, several fans who were a little too eager to see the game at close quarters also helped to hide the plays.

The judges' stand, as it now looks, is an eyesore to the public. The time may have been when it was the latest thing in judges' stands, but it certainly is out of date now. It should be razed and a portable steel tower structure secured to replace it, thus enabling fan in the grandstand to get a clear view of the playing field and the score board.

FORD AT IT AGAIN

Henry Ford just couldn't resist the temptation to jump into the limelight again in connection with the latest peace move. One would think that the redoubtable Henry would have profited by his last attempt to corral all the peace noise in the country but seemingly this is not the case. He apparently could not stand to see somebody else succeeding where he failed, and now he has to come out and express his thoughts on the subject by saying he is right behind the President in his disarmament program. However, he spoils the whole thing by his attack on munition makers and international bankers. One can see his racial prejudice cropping up right there, and it discounts entirely any sincerity he may have shown. President DuPont of the DuPont powder works was one of the first to come to the fore approving of President Harding's disarmament views. What answer can Henry Ford have to this?

The trouble with Henry, like a good many others who attempt to force their ideas on other people without being frank in their intentions is that half the time he is trying to cater to public opinion, and the other half of the time he apparently is trying to steal somebody else's thunder.

The best disarmament plan we can think of at present that Henry really should follow would be to take some steps to prohibit his well known make of automobiles from falling into the hands of drunken drivers. It would possibly save more lives in the long run than anything else he could personally accomplish.

JULY 31ST LAST DAY FOR CAPITAL STOCK TAX RETURNS

The following statement is issued by Collector of Internal Revenue, C. G. Lewellyn.

July 31 is the last day for filing returns of the capital stock tax. To avoid penalty, the returns must be in the hands of collectors of internal revenue on or before midnight of that date.

Blank forms are available at the office of Collector of Internal Revenue C. G. Lewellyn, Pittsburgh, Pa., and the following branch offices: Johnstown, Uniontown, New Castle, Erie, and DuBois, Pa. Form 707 is required for domestic, and 708 for foreign corporations.

The capital stock tax is a special excise tax imposed on corporations with respect to "carrying on or doing business." The tax on domestic corporations is \$1 for each \$1,000 or so much of the fair average value of its capital stock for the preceding year ending June 30 as is in excess of \$5,000. Foreign corporations are required to pay a tax at the rate of \$1 for each \$1,000 of their capital employed in the transaction of business in the United States without the benefit of the \$5,000 deduction. The tax is payable in advance, returns filed in July of this year covering the taxable year beginning July 1, 1921 and ending June 30, 1922.

The Bureau of Internal Revenue estimates that approximately 325,000 such returns will be filed, and that the amount of revenue collected from this source will be approximately \$90,000,000.

Returns are required of every domestic corporation regardless of the par value of its capital stock, and of every foreign corporation irrespective of the amount of capital employed in this country in the transaction of its business. Certain corporations not capital stock tax. The class of organizations entitled to the exemption is described in regulations 50, revised, copies of which may be obtained at the office of Collector of Internal Revenue, Pittsburgh, Pa.

Corporations claiming exemption are required to file returns setting forth their reasons for such claims, accompanied by evidence in support thereof.

If, because of lack of complete data or other reasons than illness or absence, it is impossible to file a complete return on or before July 31, a tentative return may be filed, reporting the approximate fair value in order that an initial assessment may be made, thus avoiding penalty.

The penalty for failure to file a return within the time prescribed is an added assessment of 25 per cent of the amount due; unless it is shown that the failure was due to reasonable cause and not to neglect.

In addition to the added assessment a fine of not more than \$1,000 is provided for failure to make a return on time. For willful refusal to make a return, willful evasion of the tax, willful refusal to supply information requested by the Commissioner, or attempting in any way to evade the tax and payment when due, the penalty is a fine of not more than \$10,000 or imprisonment for not more than one year or both.

With a view to the prompt collection of the capital stock tax, and for the convenience of the taxpayer as well as the government, the Bureau suggests that corporations submit checks with the returns for the amount of tax due. This method is appealing to corporations as it lessens liability to penalty.

K. OF C. PREPARE BIG PROGRAM FOR CONVENTION

39th Annual International Supreme Council to Meet in Frisco.

San Francisco, July 25.—Final details of the elaborate program to be presented the 20,000 visiting delegates, Knights and their Ladies, to the 39th Annual International Supreme Council of the Knights of Columbus, have been worked out jointly by the Citizens' Committee and "Casey" General Committee, the complete program having been adopted at a meeting of both committees. Although the formal business sessions of the Supreme Convention will occupy the dates August 2, 3, and 4, the entertainment program will commence Saturday, July 30th, and cover a period of an entire week.

According to the program that has been outlined, the first day of the formal business sessions of the Supreme Conclave will be the most brilliant date in the gathering of any organization in the history of this city, leading to the grounds of the Old Mission Dolores Church, the oldest church in this city, having been erected in 1776 by the hardy Franciscans. Here, on the grounds of the beautiful Notre Dame Convent, next the Old Mission, Pontifical High Mass will be celebrated by Bishop P. J. Keane, coadjutor-bishop of Sacramento. Archbishop Edward J. Hanna of San Francisco will deliver the sermon.

MAY BRING SUIT TO TEST THE STATE TAX ON ANTHRACITE

CLAIM TAX WOULD BE PASSED ON TO CONSUMER AND IS DISCRIMINATING.

Harrisburg, July 25. (United Press).—Suit will probably be filed in the Dauphin County courts within the next month to test the constitutionality of the state tax on anthracite coal, it was learned today.

In spite of the change made in the act that passed the last session of the legislature that is designed to bring into the state treasury something like \$15,000,000, which would permit the tax to be paid by the consumer, producers are protesting on various grounds.

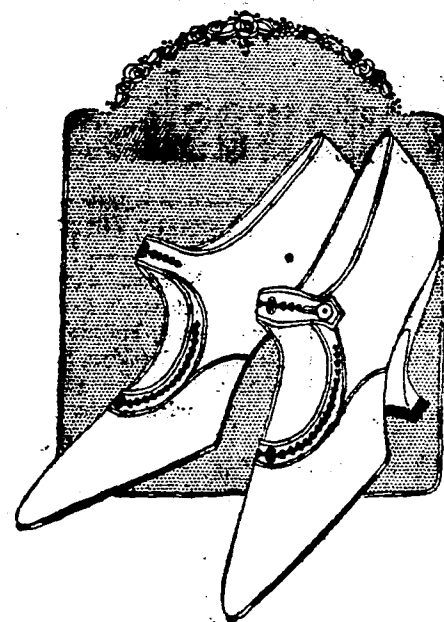

It is claimed that the 12 cents a ton that the consumer would pay is too small for the retailers to bother with and the tendency would be for the retailers to boost the price, bringing discredit on the operators.

The main contention against constitutionality of the coal tax is the fact that it discriminates against the anthracite producers. This was determined to be the case in the last attempt of the legislature to pass the measure when the state supreme court declared it unconstitutional.

It is alleged the tax is an export revenue measure that is contrary to the U. S. constitution.

If the Pennsylvania operators succeeded in obtaining a decision reversing the act, there will be no further need for bringing action that would result in the case going to the United States Supreme Court.

Attorney General Alter has expressed a desire that the suit be held at an early date so the court here can

Value of Education.

The most important thing one can acquire in school is not the information gained but the habit of study established. With a mind trained to study one has the ability to work at the solution of the problems which come up in life. Education gives one comprehension while lack of training causes bewilderment.

Play the Game.

Nothing matters so very much after all, if a man only plays a man's part. It is not so much what we call our success or our failures, but what we bring out of them, that counts. It is doing our best and doing it bravely unto the end. Happiness and much that we call success are only by-products of life's great work.

The Value of a Bank

is measured by its service to the community. In fact service is the only commodity with which a bank has to deal. It is the one great aim of this bank to be ever watchful for opportunities to broaden and better its service.

POTATO ROGUING TO BE DEMONSTRATED IN THIS COUNTY

With the potato season fast approaching the harvest point, "spuds" in Clearfield county are due for more than usual attention even at this season. A crew of specialists from the state agricultural department has arrived in this county to establish headquarters for fighting the potato wart and will make a thorough survey of the county, while the county farm bureau has arranged for a series of roguing demonstrations to commence Monday and continue all week that will aid growers in their selection of crops, and particularly of next year's seed.

In connection with the roguing demonstrations, it is announced that the demonstration of most interest will be held Thursday evening at the James Mitchell Stone House farm at 6:30. It is likely that the potato wart campaign and the roguing demonstrations will be worked in harmony.

Potato Wart Campaign.

Z. Klain, of the state agricultural department, and a crew of four men, were in DuBois yesterday on their way to Clearfield, to open headquarters in their campaign against the potato wart.

The season is just a little early as yet for the laymen to recognize the wart and there has been none of this serious infection found so far this season. In 1920, however, Clearfield county produced two centers of the wart, one at Smiths Mills and one at

Osceola Mills, while another was found at Yatesboro. All of these were quarantined and isolated and it remains for the results of this year's crops to determine how successful those sanitary measures were. Postcards are being distributed throughout the farming districts, urging farmers to report every instance of potato wart in order that a close tab can be kept upon the crops.

Potato wart causes very serious losses in Europe every season and in some instances it is impossible to raise potatoes. The parasite is spread most frequently by diseased potatoes used for seed and soil once infested remains contaminated for many seasons. The warts are described as rough, spongy growths of various sizes, generally around the eyes of the tubers. These warts are light brown at first but become black and decay with age. Immediate reports are urged if any are found when they are dug.

Roguing Demonstrations.

The roguing demonstrations are planned to instruct growers how to pick the disease free from seed potatoes in the field, how to understand and recognize the various diseases the spuds are heir to. A specialist from State College will be in attendance at all of the demonstrations and will answer questions.

The demonstrations will require about one hour's time and it is proposed to hold a number of them in the county, at which the public, particularly growers, are urged to be present.

Pershing Done in Oil

Here is Philip A. de Laszlo, English artist, and his portrait of General Pershing. It is acclaimed as the best portrait ever made of the general. It will be presented to the city of Philadelphia by the McFadden family of that city. De Laszlo has started sittings of President Harding.

LINER MAURETANIA REPORTED ON FIRE

Southampton, Eng., July 25.—A serious fire broke out in the great liner Mauretania here today. Despite efforts of the firefighters the flames spread rapidly.

The fire was discovered in a state room on deck "G" and the company firefighters hurriedly rushed their apparatus to that deck. However, the flames got away from them and leaped around the upper decks. At present time the blaze had not been placed under control.

Around the Clock.
"Yes, boys," continued the steep-lejack, who was telling "true" and thrilling stories, "yes, I was working a clock tower one afternoon about 12 minutes to 6, when I slipped, slid down the roof and caught on the long hand of the clock. There I dangled while the town folks collected below. So I yelled to 'em, 'Say, you folks, go home to your suppers, it'll be close to half an hour before I drop.'—Houston Post.

Petroleum's Value to World.
It has been said that every possible necessity of a man's life, save the water he drinks and the air he breathes, may be supplied either directly or indirectly through the use of petroleum products, and even water may be pumped by a gasoline engine.

WILL HOLD UP THE RULING ON WRAPPED BAKERY BREAD

State Industrial Board To Hold Up Action In Order To Hear Both Sides of Problem.

Harrisburg, Pa., July 25. (United Press.)—The State Industrial Board has decided to withhold all action on the proposed ruling that all bakery products must be wrapped until all parties, including the unorganized bakers as well as the public, have a chance to be heard.

A committee of representative bakers will be appointed by Commissioner Connelley, of the Department of Labor and Industry, in the very near future to hold public hearings at which time the entire question of wrapping bread and other bakery products can be discussed.

Union protest before the industrial board by 25 members of the Pennsylvania Bakers Association led by L. J. Schumake, the president, of Philadelphia, the ruling, which was purely tentative was tabled pending the result of the discussions later.

Action of the board was taken at the instance of numerous protests that much handling of bread takes place before the bread stuff from the bake shop reaches the table.

The main objections to wrapping bread were as follows:

1. It affects the flavor.
2. It makes the bread soggy.
3. It is impossible with certain kinds of bread such as the long, the round and the Vienna loaves.
4. The demand for the unwrapped bread is greater than the wrapped.
5. It would drive the small bakery shop out of business, due to costly equipment required.
6. It would increase the price of present unwrapped breads.

The protests were substantiated by numerous letters and telegrams to the secretary of the Industrial Board.

The authority for issuing the ruling is based on the nature of the petition that unwrapped bread is unsanitary and objectionable to a large body of citizens of the commonwealth.

JOHN TWOEY

John Twoey, one of Boggs township's well known residents, passed away at 3 o'clock on Wednesday afternoon, July 20th at the home of Mr. and Mrs. W. H. Mease, near Blue Ball.

The deceased was aged 75 years and 3 days. He had been in failing health for a long time, but had been improving recently. He was taken seriously ill at 8 o'clock Wednesday morning and failed very rapidly until the end came. His wife died about seven years ago and he is survived by one son, James Twoey, residing near Blue Ball.

Funeral services were held at Salem U. B. church Sunday afternoon at 2 o'clock. Interment in Bigler cemetery.

JOE MURPHY WINS GRAND PRIX RACE

Lemans, France, July 25.—Joe Murphy, driving a Duxenberg, won the 321 mile Grand Prix auto race today. Ralph DePalma finished second two laps behind.

PANAMA GOVT. DESIRES NEW RACE OF FARMERS

Panama, July 23.—The government of Panama has sent special immigration agents to Czechoslovakia, Austria, Italy, Spain, and the Canaries to induce farmers from those countries to come to Panama.

The government has begun the construction of two hundred miles of highways in the most fertile parts of the interior, and intends to follow with several hundred miles more, with the idea of opening up the country. But after the roads are built (construction has been begun and the money is in hand to pay the bills) they will not be used unless new inhabitants are brought into the country.

The native of Panama has his own farm and is living on it very contentedly, under primitive conditions in most cases, but conditions which are well adapted to the tropics and which suit him. He works little but lives well. His surplus produce is such as can conveniently be carried to a seaport on mule back, and he enjoys the weekly trip to the village.

Births

We promised not to say anything about it, but can't resist the temptation. Old Doc Stork dropped in and renewed old acquaintance with his regular customers, Mr. and Mrs. James McLaughlin at their home on Park street, one day last week and left with them a cute little boy baby. The latest arrival is No. 15 in the McLaughlin family and the parents are just as much pleased over the arrival of the last fellow as they were over No. 1.

Born to Mr. and Mrs. A. Barnhart at Cimo building this morning, a girl baby.

WOMEN TAKE AUTO TESTS

Camden, N. J., July 25. (United Press.)—On all but three days of each month, West Street, Camden, is just an ordinary street. But on those three days—the first, third and fifth Tuesday—it bristles with onlookers, a line of automobiles and several men in blue uniforms, waving their arms and blowing whistles.

The men in uniform who wave their arms and blow whistles are policemen and the occupants of the automobiles are Camden ladies taking the test to drive an automobile. A state law requires that they take this test before getting their license to drive.

Penn State Alumni Will Hold Annual Mid-Summer Outing

State College, Pa., July 25.—Alumni and students of the Pennsylvania State College from all over the central part of the state will

Saturday at Hershey for the annual mid-summer outing which has developed into the biggest collection of its kind held in the state. Elaborate preparations have been made by the Harrisburg branch of the alumni association and at least 800 Penn State men and women are expected to attend.

Shackleton Prepares for Arctic Voyage

London, July 25. (United Press.)—Sir Ernest Shackleton is preparing to start next month on his next voyage of Antarctic exploration in a tiny two hundred ton ship, the Quest.

The Quest is equipped for every branch of scientific research and will even carry a specially constructed airplane as an aid to navigators and surveyors.

Sir Ernest will pay particular attention to the surveying of the Antarctic south of the Cape of Good Hope, waters which have not been visited in ninety years.

SENATE ASKED TO PROBE THE U. S. SHIPPING BOARD

Washington, D. C., July 25.—The Senate should investigate charges that the United States Shipping Board policies have been dictated by British interests and that the board is hostile to organized labor, Senator La Follette declared today in a speech to the Senate on his resolution calling for such an investigation by the Commerce Committee.

Hollidaysburg Man Commits Suicide

Altoona, Pa., July 25.—Louis Craine, a well known Hollidaysburg grocer and lumber dealer, committed suicide at his home, 116 Broad street, Caysport, sometime early last evening by asphyxiation. The deed was committed while members of the family were attending a picnic at Lloydville. Financial trouble is believed to have caused his rash act.

Good Fire Extinguisher.
Take 20 pounds of common salt and 10 pounds of sal ammoniac (chloride of ammonia). Dissolve these in seven gallons of water. Put in thin glass bottles holding a quart each. Cork tightly and seal to prevent evaporation. When a fire breaks out, throw one of these bottles so that it will break in or near the flames, or if this is not possible, break off the neck of the bottle and scatter the contents on the fire.

Searching Parties Hunt War Veteran

Steubenville, Ohio, July 25.—Twenty searching parties in automobiles left Sunday afternoon in an effort to locate Harry C. Cummings Jr., aged 31, a world war veteran, of Steubenville, who has been missing since Saturday afternoon. Cummings is said to have taken a stranger to demonstrate a new machine and since that time no word has been received from him.

BIG CROWDS FLOCK TO SMOKY CITY BATHING RESORTS

TWO DROWNINGS REPORTED. BODIES OF MEN NOT RECOVERED AT LATE HOUR.

Pittsburgh, July 25.—Record-breaking crowds poured out of the city yesterday upon the bathing beaches of the three rivers. Two drownings were reported.

Harry H. Wilson, aged 20, of 329 Kaercher street, was drowned in the Monongahela at Beck's Run near Hazelwood. Body recovered.

An unidentified young white man lost his life in Duquesne's new swimming pool near Riverton Bridge. His body was not recovered.

Huge Sturgeon Puts Up Fight

Drumheller, Alberta, July 25.—A 65 pound sturgeon, 5 feet 10 inches long, was recently caught in the Red Deer River here, by some miners fishing near the Midland mine. Five men in all were required to get it to dry land.

"Roar" of an Ostrich. A lecturer at the London "Zoo" said that very few people knew that an ostrich roared. The roars of an ostrich and a lion were so alike that Dr. Livingstone could never distinguish the difference, save by the fact that the bird roared by day and the lion by night.—Scientific American.

MONEY COULDN'T BUY GOOD BUT DID

**Scranton Woman Declares
Tanlac Has Been Worth its
Weight in Gold To Her.**

"I wouldn't take all the money in the Universe for the wonderful good Tanlac has done me," declared Mrs. Barbara Schaffer, of 609 South 9th Ave., Scranton, Penn., in telling of the gratifying results she has obtained from the use of the medicine.

"Last winter I had a very severe attack of the gripe that left me in a terrible run-down condition. My appetite became so poor I lost all desire to eat, and my stomach was so disordered that everything I ate aged to eat caused me much pain and I would be unable to eat. My heart palpitated so badly it felt like it would jump out of my body, and at times it just looked like my breath would be cut off altogether. I suffered constantly from constipation, and had such awful headaches they were almost unbearable. I always got up mornings with a very disagreeable taste in my mouth and felt drowsy and worn out all the time.

"One day I read a Tanlac statement which so impressed me that I bought a bottle and after taking a few doses I could tell it was helping me. I had taken only two bottles so far but I can just feel my troubles leaving me and I'm already ever so much stronger and healthier. Why, the medicine is building me up so fast that my clothes are getting too small for me, and at night my sleep is sound and refreshing. I can do my housework with perfect ease now, and I can't recommend Tanlac too highly."

The adoption and adaptation of a sport idea into the dresser fashion is shown in this latest Joseph sportation. It is a "top coat" of smart lines, loose box coat effect, the perforated seams, and belt make it one of the chic fall novelties. A large gray velvet continental hat is shown.

KEYSTONE BRICKS ARE GROWING IN FAVOR EVERY DAY AS WE GET BETTER DISTRIBUTION
